

10 Gigabit All-Optical Convergence Switch

Overview

Each 10 gig SFP switch has 4x1G/10G SFP/SFP+ ports, ideal for efficient fiber aggregation and high-density fiber connectivity solutions. 8-port 10GbE Copper switch pricing starting from \$800 (varies based on region). With enough ports for all your devices, and SFP+ compatibility on all ports, this switch is perfect as a centerpiece for your Ethernet network or LAN. With 10 GBASE speeds available for your Small Form-factor Pluggable. Cisco's family of 10-Gbps symmetrical passive optical network (XGS-PON) Optical Network Terminals (ONTs) delivers flexible, high-performance broadband connectivity for a wide range of fiber-to-the-premises use cases, including residential spaces, Multidwelling Units (MDUs), Small Office/Home Office. 10 Gigabit SFP switches proudly manufactured in the USA by Versitron are available in 28, 36, and 52 port sizes with managed configuration capability. 6 and fiber cabling for reliable and fast 10 Gigabit connectivity, offering a flexible solution for upstream or downstream server connections, simplifying network administration. This rack-mountable IPv6-ready managed switch comes with an intuitive web-based interface.
