

16-Port Fiber Optic Switch with 8-Port Ethernet

Overview

The S5300-16S8TS4X is a managed Gigabit access layer switch with 16x 1G SFP, 8x 1G RJ45/SFP combo, 4x 10G SFP+ uplink ports, supports stacking of up to 2 switches. It has built-in two intelligent fans, which can automatically adjust the fan speed to save on usage costs. The BP-SWM8G8F01 is a full gigabit managed Ethernet fiber switch. It has 8*10/100/1000Base-T RJ45 ports and 8*100/1000Base-X SFP fiber slot ports. Each port can support wire-speed forwarding. The BP-SWM8G8F01 has L2+ full network management function, supports IPV4/IPV6 management, static route full. The HGW-808S is a 16-port Gigabit Ethernet switch with 8-port 10/100/1000Base-T (X) and 8-port 1000Base-X SFP slot for optical fiber providing stable and reliable transmission for Industrial Ethernet connections. HGW-808S is hardened for extreme operating temperatures: -40 to +75 Celsius. The switch can be easily. Managed Fiber Ethernet Switch enables installers to obtain long distance fiber with high speed network for installing various IP devices. A comprehensive device features gigabit network speed, gigabit uplink speed, high security, flexibility on application and installation, allow remote management.
