

Airport-grade Ghanaian optical communication tester resists electro-tracking

Article Overview

A Ghanaian optical communication tester designed for airport-grade applications can maintain high-speed, secure Free Space Optical (FSO) links while resisting detection or interference from electro-optical tracking systems.

Free Space Optical Communication in Ghana

Free Space Optical (FSO) communication transmits optical signals through the atmosphere, offering high data rates, secure transmission, license-free operation, and immunity to electromagnetic interference . In Ghana, atmospheric conditions such as turbulence and visibility variations can cause attenuation, with specific attenuation measured up to 150.95 dB/km at 850 nm and 128.2 dB/km at 1550 nm . Despite these challenges, the average attenuation is below 2 dB/km, and system availability for short propagation paths (e.g., 1 km) can exceed 99%, making FSO feasible for airport-grade applications .

Resisting Electro-Optical Tracking

Electro-optical tracking systems (EOTS) detect and follow targets using video, thermal, and laser sensors, often integrated with automated tracking loops and gimbal-mounted pedestals . To resist such tracking, an optical communication tester can employ:...

Noyafa NF-9816 All-in-One OTDR Pro & Network Tester –

Supports multi-core fiber testing, making it highly suitable for high-density fiber optic cabling environments. Enables simultaneous

Quickset Electro-Optical and Infrared Sensors (EO/IR)

Maritime EO/IR Electro-optical and infrared (EO/IR) sensors play a vital role in maritime operations, assisting in tasks

High Voltage Tracking Test Apparatus

High Voltage Tracking Test Apparatus (Model: PG-GYQH) 1 troduction The high voltage tracking test apparatus is applied to

Optical Transceiver | Anritsu America

An optical spectrum analyzer displays the wavelengths of the optical transceiver. The optical signal-to-noise level ratio (OSNR) is

U-Ton Engineering – Your Telecom Consortium

U-Ton Engineering has about five years experience operating in the African telecommunications space and has engaged in an array

Avionics and flight connectivity testing | Rohde & Schwarz

Test and measurement solutions for avionics, sensors, communication and navigation The future growth of the commercial aviation

Government procures mobile drug detectors, upgrades airport

Government has supplied the Narcotics Control Commission (NACOC) with mobile drug detection devices and is

Phone Line & Telephone Line Testers | Advanced Testing Equipment ...

GAO Tek offers a selection of handheld and rugged phone line testers that are designed for everyday field use by telecom

17_DS_Electro-Optics_IS_15

The MOETS is designed to provide test range instrumentation for optically acquiring and tracking powered and ballistic projectiles for

A Guide to Fiber Optic Testers, Tools, and Troubleshooting | Fluke

Learn about the common contaminants of fiber optics in today's mission critical networks and get a detailed look at fiber testing and

Handheld Aircraft Wire Tester (HAWT)

Handheld Aircraft Wire Tester (HAWT) Effective, easy-to-use tool for identifying faults in coax, twisted pair, and single conductor

OTDR – Optical Time Domain Reflectometer

Learn about (OTDR) technology as well as OTDR testing and types of OTDR testers used to maintain fiber

5G tester | 5G test equipment | EXFO

FTB 5GPro test kit—helping you get 5G networks up and running fast A versatile solution empowering field technicians and

The latest optical sensors and detectors for 2026 | Electro Optics

Optical detectors are used in cameras, fibre-optic communication, medical imaging, and scientific instrumentation. Common types

Airport Security & Surveillance Solutions

Providing a solution for airport security and surveillance is a uniquely challenging requirement. Few applications have as many

End-to-End Flight Line Confidence Test Set

MEON™ is an end-to-end flight line confidence test set for directional infrared (IR) countermeasures (DIRCM) and ultraviolet (UV)

Top 10+ Best Cabling and Fibre Optics Companies in Accra, Ghana

List of Top Verified Cabling and Fibre Optics Companies in Accra, Ghana, Near Me. Last updated Jul 2026

U-Ton Engineering – Your Telecom Consortium

U-Ton Engineering Limited is a Ghanaian based engineering consortium and a fiber optics industry pioneer. U-Ton Engineering has

VisiFault™ Visual Fault Locator

Visual fault locator cable continuity tester locates fibers, finds faults, verifies continuity and polarity.

Fiber Optic Test Equipment Selection Guide: Types, Features ...

Fiber optic test equipment is used to detect the signal loss or change through a fiber optic cable. The demand for fiber optic products

Electro-Optical Tracking Systems

HEMERIA's fixed or mobile electro-optical tracking systems are intended for use in harsh environments and are designed and

Photometric Tester for Airfield Lighting

AGL Photometric tester, on-site or in airport workshop. Test airfield ground lighting faster & easier than ever. Inset & Elevated lights.

(PDF) Development of Electro-Optical Tracking System

We propose a novel tracking framework (TLD) that explicitly decomposes the long-term tracking task into tracking,

COMPREHENSIVE OPTICAL TESTING SOLUTIONS | HGH

HGH BIRD Test Bench offers a universal electro-optical test bench for exhaustive and accurate CMOS detectors testing thanks to

Mini OTDR Fiber Optic Tester 1310 – Afriyie Electroworld Ltd.

PROFESSIONAL 11-IN-1 OTDR FIBER TESTER – Complete fiber testing solution with Auto OTDR, Expert OTDR, Event Map,
