

Andorra Fiber Optic Terminal Box 24-core

Article Overview

A 24-core fiber optic terminal box provides secure, organized termination, splicing, and distribution for FTTx networks, supporting up to 24 subscribers with IP65 protection.

Key Features

- Capacity: Supports up to 24 fibers, suitable for connecting feeder cables to drop cables in FTTx or FTTH networks .
- Integrated Functions: Combines fiber splicing, splitting, distribution, storage, and cable connection in a single enclosure .
- Protection: Water-proof design with IP65 rating, ensuring durability for both indoor and outdoor installations .
- Fiber Management: Equipped with splice cassettes and cable management rods, maintaining a fiber bend radius of over 40mm to prevent damage .
- Splitter Compatibility: Can accommodate optional 1×8 or 1×16 PLC splitters for network distribution .
- Cable Entry: 24 ports for drop cables, with mid-span entry for uncut feeder cables and mechanical glands for distribution cables .

Installation Options

- Wall-mounted or pole-mounted: Flexible installation for various network layouts .
- Maintenance-friendly design: Flip-up distribution panel and organized cable paths allow easy access for splicing, testing, and future expansion
