

Armored Optical Composite Cable Manufacturer

Article Overview

Leading manufacturers of armored composite optical cables include TiniFiber, CRE Marine, Hydro Group Systems, Leviton, and Cable Solutions Worldwide, offering solutions for harsh environments, subsea, and enterprise applications.

Key Manufacturers

TiniFiber TiniFiber specializes in U.S. patented Micro Armor Fiber® optical cabling solutions, providing ultra-small, lightweight, and highly rugged cables suitable for outdoor and harsh environments. Their cables feature a high fiber-count design with robust outer jackets while maintaining flexibility for easier handling and cost-effective installation . **CRE Marine** CRE Marine designs and stocks a wide range of subsea composite cables, including power, signal, coax, and fiber optic types. They offer custom cable design for deepwater applications up to 6,000 meters, with extensive testing capabilities such as hyperbaric, signal performance, and load testing . **Hydro Group Systems** Hydro Group Systems manufactures subsea and hybrid composite cables for oil and gas, renewable energy, and defense sectors. Their cables are engineered for harsh environments, with in-house design and testing for voltage drop, insulation resistance, bending, and axial stiffness. They produce cables from 100 meters to several kilometers in length and diameters from 5mm to 120mm . **Leviton** Leviton offers armored fiber optic cables with a unique spiral wrap armoring process that preserves flexibility while providing durability. Their products are suitable for plenum, riser, data center, and enterprise installations . **Cable Solutions Worldwide** Cable Solutions specializes in subsea composite cables for oil & gas, mar...
