

Botswana Small High Voltage Distribution Box

Article Overview

Small high voltage distribution boxes in Botswana are available from local manufacturers like Sharps Electrical and Val Dor, designed to meet Botswana Power Corporation standards for safe and reliable power distribution.

Local Manufacturers and Suppliers

Sharps Electrical in Gaborone produces a range of electrical distribution boards, including high voltage switchboards and motor control centers. Their LESEDI Boards are manufactured under ISO 9000 quality standards and comply with safety procedures in accordance with NOSA, ensuring reliability and adherence to local regulations. They also offer testing, commissioning, and automation control equipment suitable for industrial and utility applications. Val Dor Electrical Switchboards, also based in Gaborone, provides switchboards and distribution boxes for high voltage applications. Established in 2016, they serve both commercial and industrial clients in Botswana.

Standards and Compliance

High voltage distribution boxes in Botswana are expected to comply with the Botswana Power Corporation (BPC) Standard Requirements. These standards cover design parameters, material specifications, installation procedures, and construction of distribution systems to ensure technical soundness and resilience against environmental factors. Following these standards ensures that distribution boxes a...
