

Cable protection strip for distribution boxes

Overview

Grommet strips provide a practical solution for protecting cables as they pass through sharp or rough edges. Made from flexible and durable materials, these strips prevent cable wear and damage, ensuring long-term reliability. It's easy to use, simply coil the excess cable and slide it into place. Essentials that pair. Cable grommets help to minimise these risks and to protect the cabling. KT grommet based. Protect cable and cords in areas with pedestrian and equipment traffic Bundle wiring and protect from abrasion and heat Securely connect cords to enclosures while sealing out dirt and moisture Guide and organize wiring inside electrical boxes and machines Route, protect, and guide moving cable. Surge Protectors provide protection for devices from a voltage spike or power surges. The types of protection are Outlet Boxes, Outlet Strip, Power Distribution Unit (PDU), Surge Protector, Surge Protection Module, and Surge Protector for Media Lines Only. The current ranges from 150 mA to 310 A.
