

Carrier-grade fiber optic adapter

Overview

Also known as fiber couplers, these components are critical for joining two fiber optic connectors with high precision and minimal signal loss. Bridge your network gaps with professional-grade fiber optic adapters from Network Supply. This LC to SC adapter can avoid accidental damage to the main control terminal. This module supports. A fiber-optic adapter — sometimes called a coupler or bulkhead coupler — is a passive mechanical interface that mates and aligns two terminated optical fibers (i., two fiber connectors) such that light can reliably pass from one to the other with minimal insertion loss and maximum return loss. Kolorapus is a factory direct supplier specializing in the research and development of wires and cables and supporting equipment. Cables, flexible towline cables, elevator flat cables, various special cables and related accessories, such as modules, panels, distribution frames, jumpers, pigtails.
