

Chilean Bridge Construction Project

Overview

The Chacao Channel bridge, also known as Chiloé Bicentennial Bridge, is a bridge currently under construction to link the island of Chiloé with mainland Chile crossing the Chacao Channel. It was one of the several projects that were planned to commemorate Chile's bicentennial in 2010. The Chacao Bridge is currently 50.62% complete, according to Public Works Minister Jessica López during an inspection visit to the project. This project was launched by the Chilean Ministry of Public Works to boost the economic development of the area by facilitating access to. The Chacao Bridge project in Chile marks a transformative step in connecting mainland Chile to the island of Chiloé. As South America's longest suspension bridge, spanning 9,022 feet (2,750 meters), it will enhance transportation, foster economic growth, and improve accessibility for residents and.
