

Croatian Outdoor Distribution Box Specifications

Article Overview

Croatian outdoor distribution boxes are designed for robust fiber optic distribution, supporting 16-24 LC or SC couplers, with durable outdoor-rated enclosures and internal cable management trays.

Key Specifications

Material and Construction:

- Typically made from CRCA MS (cold-rolled close annealed mild steel) for durability and corrosion resistance .
- Designed for outdoor installation, with protection against environmental factors such as UV exposure and moderate temperature variations . Coupler Capacity:
- Standard models support 16x LC (DX) or SC (SX) couplers for secondary distribution .
- Larger FTTH boxes can accommodate 24x LC/Duplex or SC/Simplex couplers .

Internal Layout:

- Equipped with overlength trays for pigtails and fiber management, ensuring organized routing and minimal bending stress .
- Pre-assembled with adapters, splice cassettes, and pigtails for simplified installation .
- Cable inlets allow multiple entry points for flexible cabling options. Environmental and Safety Considerations:
- Fiber optic cables are sensitive to mechanical stress; boxes are designed to preve...
