

Distribution box sd

Article Overview

An SD distribution box is a device used to distribute electrical power or audio/video signals efficiently, with models available for both industrial electrical applications and professional audio/video setups.

Electrical Distribution Box (SEA9BNDM200SD)

The SEA9BNDM200SD is an industrial electrical distribution box designed for commercial and industrial applications. Key features include:

- Type: 4-pole dual metered extension enclosure
- Current Rating: Up to 200A
- Communication: MID 3-phase kit with Modbus and pulsed output
- Dimensions: 1150mm (W) x 270mm (H) x 132mm (D)
- Material: Steel front door, white color (RAL9001)
- Protection: IP3x according to BS/EN 60529
- Applications: Standard, commercial, and industrial electrical distribution This type of SD distribution box is used to manage and monitor electrical circuits, providing safe and organized power distribution with metering capabilities.

Signal Distribution Box (SD 6/4)

For audio and broadcast applications, the SD 6/4 signal distribution box is used to route input signals to multiple outputs. Key specifications include:

- Inputs: S-COM 19 connector or six female XLR connectors...
