

Estonian EPON Equipment SFP

Overview

The EPON ONU Small Form-factor Pluggable (SFP) transceiver provides 1. 25Gbps upstream data rate, reaching a link up to 20km via an SC/APC connector. It can operate at temperatures between -40 to 85°C. the ePON stick is in a standard Msa sfp footprint and is compliant with the IEEE802.3. Digital diagnostic functions are available via the 2-wire serial bus as. Finisar's EPON Sticks are combination of a SFP transceiver with a built-in EPON ONU. 25G-RX transceiver is specifically designed for Ethernet Passive Optical Network (EPON) system. -- Finisar Corporation (NASDAQ: FNSR), a leading provider of optical communication devices for networking and computing connectivity, today announced that its EPON (Ethernet Passive Optical Network) Stick is available as the first Multi-Source Agreement (MSA) Small Form-factor. Finisar's SFP optical transceiver modules are used in enterprise and datacenter networks.
