

Fireproof putty for sealing vertical shaft cable trays

Overview

FM011 Moldable Firestop Putty is an industry leading, one-part, flexible intumescent putty ready-to-use for wall or floor openings containing cable trays, cable bundles, plastic pipes and/or conduits providing up to a 3-hour fire resistance rating. Where cables pass through shafts, walls, slabs, or enter electrical panels or cabinets, openings shall be tightly sealed with firestopping materials in accordance with. Avoid cable fires and stop them safely! KBS ® offers various solutions to effectively protect cable penetrations from the passage of flames and smoke. In most cases, the task is to seal off complex cable systems and cables on support constructions. However, individual cables and cable bundles as. 3M Fire Barrier Moldable Putty+ is a one-part, halogen-free product designed to firestop electrical outlet boxes and a wide variety of through-penetrations including cable, conduit, insulated pipe and metal pipe, which penetrate fire-rated construction. INSS1440 Listed designs use less product and offer exceptional performance, making it more cost effective than other traditional firestop caulking. INSS2460 Fire Barrier Silicone Sealant is a.
