

Grenada has ample supply of outdoor server racks

Article Overview

Grenada offers a range of weatherproof outdoor server racks and cabinets designed to protect IT, telecom, and network equipment in harsh environments.

Types of Outdoor Server Racks

- **Weatherproof Cabinets and Enclosures** These are fully sealed cabinets designed to protect sensitive electronics from rain, dust, humidity, and extreme temperatures. They are available in stainless steel or polycarbonate for durability and corrosion resistance, suitable for housing network equipment, control panels, and telecom devices .
- **Waterproof Server Cabinet Enclosures** These cabinets feature IP66 and NEMA 4X ratings, ensuring maximum protection against water and dust ingress. They are ideal for outdoor server installations in exposed or remote locations .
- **Wall-Mounted Outdoor Racks** Space-saving options for outdoor installations, these racks are durable, lockable, and ventilated, suitable for routers, patch panels, and small servers .
- **Heavy-Duty Outdoor Server Cabinets** Designed for larger IT setups, these cabinets include cooling fans and ventilation systems to prevent overheating and maintain network uptime .
- **Single and Double Server Enclosures** Available for IT, security, and telecom applications, these enclosures are weatherproof and climate-controlled, providing long-lasting protection for critical equipment .
