

How much does a single-mode single-core pigtail cost in East Africa

Article Overview

A single-mode, single-core fiber optic pigtail typically costs between \$1.50 and \$5 USD per unit in East Africa, depending on connector type, length, and supplier.

Price Range and Factors

The cost of a single-mode, single-core pigtail varies based on several factors:

- Connector Type: SC, LC, ST, or FC connectors influence price. SC/APC and LC/APC connectors are slightly more expensive due to their low back-reflection performance, ideal for FTTH and long-distance applications .
- Polish Type: APC (angled) connectors generally cost more than UPC (flat) connectors because they reduce signal reflection .
- Cable Length: Standard pigtails are usually 1-2 meters. Longer lengths may increase cost slightly .
- Quality and Certification: CE-certified or LSZH (Low Smoke Zero Halogen) jackets add to the price .
- Supplier and Import Costs: In East Africa, prices are affected by shipping, import duties, and local distributor margins. Bulk purchases often reduce per-unit cost.

Typical Pricing

- Basic SC/UPC or LC/UPC single-mode pigtail (1-1.5m): \$1.50-\$3 USD per unit
- SC/APC or LC/APC single-mode pigtail (1-1.5m, LSZH jacket): \$3-\$5 USD per unit...
