

How much does one meter of fiber optic broadband cable cost

Article Overview

Fiber optic cable costs typically range from \$0.10 to \$6.50 per meter, depending on type, protection, and installation requirements.

Typical Price Ranges

- Single-mode fiber (OS2, 9/125 μm): \$0.30 to \$2.80 per meter, with lower-cost generic glass and higher-cost premium brands like Corning affecting the price .
- Multimode fiber (OM3/OM4, 50/125 μm or 62.5/125 μm): \$0.10 to \$6.00 per meter, generally more expensive due to manufacturing complexity .
- Armored cables: \$0.50 to \$6.50 per meter, providing protection against physical damage, rodents, or direct burial .
- Indoor simplex/duplex cables: \$0.05 to \$0.30 per meter, suitable for office or building runs .
- Outdoor or aerial cables: \$0.40 to \$1.50 per meter, depending on UV resistance, gel filling, or direct burial rating .

Factors Affecting Cost

- Fiber Count: Higher strand counts (e.g., 24-core, 96-core) increase material costs proportionally.
- Cable Construction: Armored, plenum-rated, or gel-filled cables cost more than standard indoor PVC or LSZH jackets .
- Installation Environment: Outdoor, underground, or aerial installations require additional protection and labor, raising per-meter costs
