

How to hide the electrical distribution box

Article Overview

You can hide an electrical distribution box using decorative covers, furniture, screens, or plants, while ensuring safety and easy access for maintenance.

Safety First

Before concealing a distribution box, it is crucial to maintain code-mandated clearances. The National Electrical Code (NEC) requires a minimum 36-inch depth in front of the panel, at least 30 inches width, and 6 feet 6 inches vertical clearance from the floor to any obstruction. Any cover must be non-permanent and instantly removable without tools to allow emergency access or technician service . Avoid blocking ventilation or visual inspection of the box .

Indoor Concealment Ideas

- **Hinged Artwork or Mirrors:** Mount a lightweight frame with butt hinges so it swings open like a door. Magnetic catches or small latches keep it flush but allow tool-less access .
- **Wall Hangings or Tapestries:** Large decorative pieces can cover the box and be easily moved aside when needed .
- **Furniture Placement:** Bookshelves, cabinets, or decorative furniture can hide the box, provided they are easily removable for maintenance .
- **Curtains or Fabric Panels:** Quick and elegant, curtains can match room decor and provide instant concealment .
- **DIY Covers or Screens:** Lightweight folding panels, pegboards, or custom wooden/...
