

Industrial control distribution boxes supplied directly from the source

Article Overview

Industrial control distribution boxes are available directly from manufacturers like Wieland, IDE Electric, Weidmüller, ETI Group, and MARECHAL®, offering modular, certified, and customizable solutions for industrial automation and power distribution.

Key Features and Applications

Industrial control distribution boxes are designed to house electrical or electronic switchgear, control gear, and automation equipment. They are widely used in industrial plants, machine tools, and building automation systems. These boxes provide power, signal, and data distribution while ensuring safety, reliability, and compliance with international standards such as IEC 61439 and IEC 61535 (Wieland) or equivalent certifications (IDE Electric, Weidmüller) .

Material and Protection

- **Materials:** High-quality cold-rolled steel, polycarbonate, or halogen-free plastics for durability and impact resistance .
- **Protection Ratings:** IP44 to IP67, ensuring resistance to dust, moisture, and harsh industrial environments .
- **Special Features:** Some models include portholes or windows for instrument display, EMC shielding, and modular internal layouts for flexible installation .
