

Mexican Drop Cable 6 Cores

Overview

The 6 Core FTTH Aerial Self-Support Drop Cable GJYXFCH is a high-quality fiber optic drop cable designed for use in fiber-to-the-home (FTTH) applications. Two parallel FRP strength members ensure good performance of crush resistance to protect the fiber, and reduces the weight of the fiber optic cable. 0 mm phosphated. 6 core fiber optic cables support various types of transmission by offering multiple pathways for the light signal. They are ideal for different setups, ranging from short-distance applications to long-range communications. The cross section is butterfly-shaped. The reinforcing member is located at the center of the two circles, and the metal or non-metal.
