

Mexico Mobile Power Distribution Box Manufacturer

Article Overview

Panelo and Shengen are leading manufacturers of mobile and industrial power distribution boxes in Mexico, offering UL-certified solutions for U.S. and local markets.

Key Manufacturers

Panelo Panelo operates two plants in Monterrey and Guadalajara, producing low- and medium-voltage switchgear, transfer switches, and UPS systems. Their products are UL- and ANSI-certified, designed for U.S. integrators, data centers, and utilities. They offer service-entrance and distribution switchboards up to 600 V, 6000 A, with front- and rear-accessible configurations, copper or aluminum bus, and full SCCR ratings. Panelo emphasizes fast quoting and delivery, often shipping in weeks rather than months, leveraging a Mexican manufacturing cost base while maintaining compliance and documentation standards . **Shengen** Shengen specializes in custom power distribution boxes for industrial and commercial setups. They provide a streamlined process: customers submit drawings or reference images, receive a quote within 24 hours, and production begins after approval. Shengen focuses on safety, efficiency, and tailored solutions, handling shipment logistics for clients .
