

Norwegian aluminum cable tray price quote

Article Overview

Aluminum cable trays in Norway typically range from \$20 to \$50 per meter, depending on type, size, finish, and project specifications.

Price Range and Cost Factors

Aluminum cable trays are lightweight, rust-proof, and suitable for both indoor and outdoor installations, but they are generally more expensive than steel trays. The average price per meter ranges from \$20 to \$50, with custom or coated trays potentially costing more. Key factors influencing the price include:

- Tray type: Ladder trays are more expensive due to higher load capacity, while perforated or wire mesh trays are cheaper.
- Surface finish: Powder-coated or anodized aluminum increases durability and cost.
- Dimensions: Wider or taller trays for heavy cable loads cost more.
- Project scale: Bulk orders or large EPC projects may receive volume discounts.
- Accessories and fittings: Brackets, clamps, and specialized connectors add to the total cost.

Suppliers and Market Context

Norway's cable tray market is a mix of domestic fabricators and international suppliers, serving industries like oil and gas, renewable energy, datacenters, and maritime projects. Notable suppliers include:
