

Price List for 1G Optical Network Switches for Data Center Interconnection

Article Overview

1G optical switches for data center interconnection typically range from \$100 to \$500 per unit, with compatible 1G SFP transceivers costing \$5-\$120 depending on brand and specifications.

1G Switch Pricing

1G switches designed for data center interconnection vary by form factor, port count, and manufacturer. Options include:

- Rack-mounted 19" switches: Common in data centers, supporting multiple SFP slots for fiber connectivity. Prices generally start around \$150-\$300 for entry-level models and can exceed \$500 for higher-end or industrial-grade switches .
- DIN-rail or wall-mounted switches: Suitable for smaller deployments or edge interconnects, typically priced \$100-\$250 depending on port count and features .
- Industrial switches: Designed for harsh environments with extended temperature ranges and shockproof features, often costing \$300-\$500 .

1G SFP Optical Transceivers Pricing

1G SFP modules are required to connect switches over fiber. Pricing depends on type, reach, and brand:

- 1000BASE-SX (short-range, multimode fiber, up to 550m): Compatible third-party...
