

Price of Metal Junction Boxes for Power Fiber Optic Cables

Article Overview

Metal junction boxes for fiber optic and power cables typically range from \$50 to several hundred dollars, depending on capacity, material, and environmental ratings.

Overview

Metal junction boxes, also known as splicing boxes or metal joint junction boxes, are designed to house and protect fiber core splices for outdoor and indoor installations. They are commonly made from aluminum alloy, stainless steel, or powder-coated steel, providing durability, resistance to environmental elements, and long-term reliability . These boxes are rated for IP65, ensuring protection against dust, moisture, and extreme weather conditions .

Factors Affecting Price

- **Fiber Capacity:** Boxes can accommodate anywhere from 12 to 576 fibers, with common configurations including 24, 36, 48, and 60 fibers . Higher capacity boxes generally cost more due to increased material and internal components.
- **Material and Construction:** Aluminum alloy boxes are lighter and corrosion-resistant, while stainless steel offers higher durability. Powder-coated steel provides additional protection against rust and UV exposure .
- **Mounting Options:** Wall-mounted, pedestal-mounted, or pole-mounted boxes may have different pricing due to design complexity and installation hardware .
- **Environmental Ratings:** Outdoor-rated boxes with IP65 or higher, capable of withstanding temperatures from -40°C to +65°C, vibration, and mechanical stress,...
