

Price of Trapezoidal Cable Tray

Article Overview

Trapezoidal cable trays typically cost between \$10 and \$50 per meter, depending on material, coating, and installation requirements.

Price Range by Material

- Steel (Galvanized or Pre-Galvanized): \$10–\$30 per meter. Galvanized steel offers a balance of durability and affordability, while pre-galvanized steel is cheaper but less corrosion-resistant .
- Aluminum: \$20–\$50 per meter. Lightweight and corrosion-resistant, aluminum trays are ideal for outdoor or humid environments but are more expensive than steel .
- Stainless Steel: Higher-end pricing, often above \$50 per meter, suitable for highly corrosive or hygienic environments such as food processing or coastal areas .
- Plastic or FRP (Fiberglass Reinforced Plastic): \$10–\$50 per meter depending on specifications. These are budget-friendly and corrosion-resistant but not suitable for heavy loads .

Factors Affecting Cost

- Coatings and Finishes: Hot-dip galvanized (HDG) or powder-coated trays increase durability but add to the price .
- Tray Type and Design: Ladder trays are more expensive than perforated or solid-bottom trays due to higher load capacity .
- Installation Complexity: Labor, supports, brackets, and connectors can significantly increase total project cost .
- Bulk Orders: Purchasing in larger quantities can reduce per-meter cost
