

Price of adding a fan to a distribution box

Article Overview

Distribution boxes with integrated fans typically range from \$150 to \$600 or more, depending on size, material, and airflow features.

General Pricing Overview

The cost of a distribution box depends on several factors including material, capacity, number of connections, and additional features such as integrated fans or airflow control systems. Standard residential or small commercial units can start around \$150-\$250, while larger industrial-grade or smart-enabled boxes may exceed \$500-\$600 per unit . Customization, such as OEM branding, modular configurations, or specialized duct adaptors, can further increase the price .

Example: Air Excellent DB206H160

A practical example is the Air Excellent DB206H160, a distribution box designed for ventilation systems with a fan. It features 6 duct connections, internal air restrictor rings for precise airflow control, and compatibility with 160mm insulated ducts. This type of fan-equipped distribution box is ideal for small to medium spaces and can be installed on ceilings, walls, or floors . While the exact price varies by supplier and region, units like this typically fall in the \$200-\$400 range, depending on shipping and configuration options.

Factors Affecting Price

- Material: Plastic enclosures are cheaper, while powder-coated steel or stainless steel units are more expensive
