

Price of cable tray type self-adhesive laminating machine

Article Overview

Industrial self-adhesive laminating machines for cable trays typically range from \$2,000 to \$15,000 depending on automation, width, and features.

Overview

Cable tray type self-adhesive laminating machines are used to apply a protective adhesive layer over printed labels or tapes for cable identification. These machines are essential in industrial settings for durable labeling, protecting against moisture, abrasion, chemicals, and high temperatures . They are compatible with self-laminating vinyl labels and tapes, such as those from Brady or HellermannTyton, which are widely used for wire and cable marking .

Price Factors

- Automation Level:
 - Manual or semi-automatic laminators: \$2,000-\$5,000
 - Fully automatic industrial laminators: \$8,000-\$15,000 or more, depending on speed and width
- Production Width:
 - Machines supporting narrow tapes (1.6 meters) are generally less expensive.
 - Wide-format laminators (up to 5.5 meters) for large-scale cable trays or industrial films cost more
