

Price of cable tray welding fixing brackets

Article Overview

Cable tray welding fixing brackets typically range from \$2 to \$15 per piece depending on material, size, and coating.

Overview of Brackets

Cable tray welding fixing brackets are used to secure cable trays to walls, ceilings, or other structures, ensuring stability and compliance with standards like EN 61537 . They are available in various materials such as galvanized steel, stainless steel, or electro-zinc coated steel, which affects both durability and price . Brackets can support light, medium, or heavy-duty loads, and some are designed for flexible installation with single or paired mounting options .

Price Factors

- **Material and Coating:** Hot-dip galvanized or stainless steel brackets are more expensive than standard zinc-plated versions due to corrosion resistance and longevity .
- **Size and Load Capacity:** Larger brackets or those designed for heavy-duty industrial trays cost more. Small wall-mount brackets for light-duty trays are at the lower end of the price range.
- **Supplier and Quantity:** Wholesale or bulk orders from manufacturers, especially from China, can reduce the per-unit cost significantly . Retail or UK-based suppliers may charge higher prices for single units or small orders .
- **Special Features:** Adjustable or flexible brackets, or those compatible with multipl...
