

Progress of Fast Link Optical Cable in Azerbaijan

Overview

AzerTelecom and Kazakhtelecom are closing in on the commissioning of a 380 km, 400 Tbps submarine fiber cable across the Caspian — completing the Digital Silk Way corridor and rewiring east-west internet traffic around Russia. According to Yusif Jabbarov (Yusif Cabbarov), Chairman of NEQSOL Holding, the Trans-Caspian fiber-optic cable project not only strengthens digital connectivity and technological advancement across the region but also contributes to regional economic cooperation. Kazakhstan and Azerbaijan are moving. Initiated by NEQSOL Holding and implemented through its subsidiary AzerTelecom, the Digital Silk Way is a large-scale digital infrastructure project designed to build a high-capacity transit fiber-optic network linking Europe with Central and South Asian markets / Digital Silkway The Trans-Caspian. AzerTelecom and Kazakhtelecom are entering the final construction phase of the Trans-Caspian Fiber Optic Cable Line (TCFOCL), a 380-kilometer submarine link between Sumgait in Azerbaijan and Aktau in Kazakhstan. The 380-kilometer Trans-Caspian Fiber Optic Cable Line will connect Sumgait in Azerbaijan with Aktau in. Trans-Caspian Cable Construction Reaches New Milestone PR News - Azerbaijan AzerTelecom and Kazakhtelecom Reach Key Milestone in Regional Connectivity Project Linking Asia and Europe Through the Caspian Sea BAKU, AZERBAIJAN, May 23, 2025 // -- The Trans-Caspian Cable project—set to establish the. The Trans-Caspian Fiber-optic Cable project, set to establish the first fiber-optic connection between Azerbaijan and Kazakhstan, has reached a new milestone in its construction phase.
