

Ranking of Micro-Module Data Center Manufacturers

Article Overview

Top micro-module data center solution providers include Dell Technologies, HPE, Schneider Electric, Vertiv, Huawei, Eaton, and ABB, recognized for innovation, rapid deployment, and scalable modular infrastructure.

Leading Manufacturers

- Dell Technologies – Dell offers highly economical and energy-efficient modular data centers (MDCs) with prefabricated modules that reduce deployment time. Their solutions support Tier 2 and Tier 3 capabilities, with over 500 global deployments and more than 750,000 servers installed, making them a strong choice for rapid expansion and sustainability-focused operations .
- Hewlett Packard Enterprise (HPE) – HPE specializes in Performance Optimized Datacenters (PODs) and modular units optimized for GreenLake consumption models. Their solutions are rugged, high-performance, and suitable for hybrid cloud and HPC workloads, with a “pay-as-you-grow” model enhancing flexibility .
- Schneider Electric – A global leader in end-to-end integration, Schneider Electric provides modular data centers with integrated power, cooling, and DCIM management. Their EcoStruxure platform supports hyperscale, edge, and enterprise deployments, emphasizing sustainability and scalability .
- Vertiv – Vertiv focuses on critical digital infrastructure with advanced thermal management for GPU-heavy AI clusters. Their prefab modular blocks enable fast deployment and high-density cooling, particularly for edge and multi-megawatt campuses .
- Huawei Technologies – Huawei's FusionModule series integrates power, cooling, a...
