

Specifications of a 16-position distribution box

Article Overview

A 16-position distribution box provides centralized connection for sensors or fiber optic cables, featuring 16 ports, robust protection, and flexible installation options.

Industrial M8 Distribution Box

- Ports: 16 M8 connector ports for sensors, actuators, or switches.
- Output Type: Single-channel NPN output for reliable signal transmission.
- Indicators: LED status indicators for each port to monitor connections visually.
- Interface: Wide-body PCB interface for secure and stable wiring.
- Enclosure: Integrated junction box, compact design to save panel space.
- Applications: Automotive, packaging, material handling, and multi-sensor industrial setups.
- Environmental Resistance: Designed for harsh factory conditions with vibration, moisture, and temperature variations in mind .

Fiber Optic Distribution Box

- Ports: Supports up to 16 SC, LC, or FC adapters for fiber connections.
- Splitter Support: Compatible with 1×8 PLC splitters for 1:16 drop cable distribution.
- Material: Flame-retardant ABS or PC+ABS, moistureproof, dustproof, and anti-aging.
- Protection Level: IP65, providing full dust-tight protection and resistance to water jets.
- Installation: Wall-mounted or pole-mounted for indoor or outdoor use....
