

Telecommunications Engineering Distribution Box

Overview

The Distribution Point Box is an essential component in telecommunications and network infrastructure, used to organize and distribute telecommunications signals to various parts of a network for maintenance and troubleshooting. Suitable for both indoor or outdoor installations. This cabinet offers 32x Optical Distribution Frames (ODF) and 10x 1:32 Splitters, ensuring efficient network distribution. Experience the efficiency and reliability of our versatile. Unique, innovative, versatile enclosure made of ABS or polycarbonate UL 94 V0 • Patented, innovative, hinged quick-release catch technology without screws: open with a screwdriver, close by hand • More than 25 sizes and 150 standard. In addition to providing. DOHO is a leading cable distribution box manufacturer and supplier. Our ZDS is built to EIA/TIA standards to ensure category 5, 5e or 6.
