

What are some manufacturers of fire-resistant horizontal cable trays

Article Overview

Top companies for fire-resistant horizontal cable trays include Basor Electric, Cablofil, Meka, HERMI, and EAE, all offering rigorously tested and certified solutions for critical electrical installations.

Leading Manufacturers

Basor Electric specializes in cable trays designed to maintain circuit integrity during fires, ensuring critical systems like smoke extractors, emergency lighting, and fire alarms remain operational. Their products are tested according to European and local fire resistance standards, including German, Czech, and Slovak regulations, simulating extreme fire conditions to verify performance. Cablofil offers fire-resistant cable basket trays compatible with Prysmian FP and Draka Firetuf cables. Their systems are tested under the stringent German DIN 4102-12 standard, enduring temperatures up to 1000°C for 30, 60, and 90 minutes. Cablofil trays are widely used in construction, power, oil, gas, petrochemical, rail, and utilities industries. Meka Pro provides over 1,200 fire-tested cable management products. Their trays are tested according to EN 1363-1 standards, ensuring electricity supply continuity during fires. Meka emphasizes materials that resist collapse and avoid toxic fumes, supporting safe evacuation and critical equipment operation. HERMI focuses on constructing fire-resistant cable paths with both standard and lightweight trays. They offer personalized guidance to select the most suitable solution for specific installation needs, ensuring compliance with fire safety requirements. EAE Group manufactures fire-resistant cable trays under strict ISO standards, including ISO 9001, ISO 14001,...
