

What is the price of wiring for distribution boxes

Article Overview

The cost to wire a distribution box typically ranges from \$6 to \$8 per linear foot for standard residential wiring, with total installation costs for a full panel replacement ranging from \$1,200 to \$6,000 depending on amperage, location, and complexity.

Cost Breakdown

Materials and Panel Costs: A basic distribution box or panel can cost between \$150 and \$1,900, depending on amperage, number of circuits, and features such as surge protection or smart monitoring . Premium or outdoor panels with weatherproof enclosures and modular designs can increase the price. **Wiring Costs:** Standard electrical wiring is generally priced at \$6–\$8 per linear foot for residential installations. Structured wiring for communication or entertainment adds about \$2 per foot, while low-voltage wiring costs \$0.40–\$0.62 per foot . A typical 1,200-square-foot home may require 284 linear feet of wiring, costing \$2,200 to \$2,500, with full rewiring of a 3-bedroom house ranging from \$2,500 to \$6,000 . **Labor Costs:** Electrician rates vary from \$75 to \$120 per hour, with total labor hours for panel replacement or rewiring ranging from 6 to 18 hours depending on complexity, accessibility, and whether a full service upgrade is needed . Urban areas may incur higher labor and permit fees, while rural locations may save on labor but face transport costs for special panels. **Additional Costs:** Permit fees, meter socket replacement (\$200–\$600), structural modifications, conduit rerouting, or upgrading to meet modern code requirements can add to the total cost . Outdoor or flood-prone locations, sub-panels, and difficult access can further increase labor and material e...
