

What kind of baseboard is best for a hallway cabinet

Overview

Your main options for baseboard materials are MDF, wood, and PVC. Wood is usually preferred if you can afford high-quality material. Other options like PFJ, LDF, and less commonly used types of wood like poplar are also available. MDF is a more affordable option, and PVC should be used with extra. Your baseboard choice depends on style, material, and ceiling height, with sculpted designs for traditional homes and flat profiles for modern spaces. Check Price on Amazon Sunnyglade's 10-pack baseboard molding is made from premium polystyrene. Baseboards are planks that cover the length of the lowest part of the interior wall up to a door's lower joint. They take a beating over the years from vacuum cleaners, pets and the occasional kick to. The right trim depends on a number of factors, including your home's style, other design elements in the room, the material you choose, and your budget. Baseboards come in a wide array of profiles, or shapes, and many manufacturers make dozens of different options. This guide breaks down the most common styles.
