

Which manufacturer does SF in optical fiber cable represent

Overview

, established in 2002 and based in San Francisco, California, is a wholesale supplier of electronic products like power cables, adapters, and fiber optic products. Small Form-factor Pluggable (SFP) is a compact, hot-pluggable network interface module format used for both telecommunication and data communications applications. An SFP interface on networking hardware is a modular slot for a media-specific transceiver, such as for a fiber-optic cable or a copper. Since 2002, SF Cable provide the highest quality computer cables, components, and accessories (including custom products like fiber optic and copper networking cables and modular adaptors) at the lowest prices on the internet delivered with complete customer satisfaction. The design provides versatilities in applications for long haul, regional, metropolitan, and local area networks, as. Established in 2002, SF Cable, Inc. We offer a wide range of products from standard PC products, network cables, and HDMI cables to custom cable assemblies and wiring.
